IGD-TP Secretariat beyond 2011

- Decision in principle taken by Executive Group to continue the Secretariat function during 2012 when FP7 support from EC ends on January 3, 2012.
- Discussions are ongoing regarding the associated organisation for 2012.
- A new secretariat project proposal is foreseen to be submitted to the EC in March 2012 for an additional period of four years (2013-2016).

Added Secretariat work tasks 2012. 1(4)

- Further development and maintenance of the website www.igdtp.eu including announcement of opportunities for the IGD-TP participants to join the joint deployment activities.
- Further development and maintenance of Intranet(s) for Executive Group, Secretariat and Working Groups co-operation.

© IGD-TP

© SecIGD

Added Secretariat work tasks 2012. 2(4)

- IGD-TP's Deployment Plan Final Draft.
- Consultation on DP document drafts via www.igdtp.eu .
- Publication of IGD-TP's Deployment Plan.
- To keep an overview over Deployment Plan activities to report on progress and suggest decisions to the EG. Secretariat to include all progress activity into the Master Deployment Plan.

© IGD-TP

© SecIGD

Added Secretariat work tasks 2012. 3(4)

- The Secretariat shall assist the individual activities by providing the governance and project management models and by developing them further as experience on joint activity deployment is gained.
- Update of the Deployment Plan (DP) taking into account yearly progress,
- Suggestions to the EG of dissemination activities and their coordination.

© IGD-TP

© SecIGD

Added Secretariat work tasks 2012, 4(4)

- Integration of some high priority activities of the DP in future Euratom calls.
- Follow-up of the interactions between IGD-TP and the EC.
- To take in charge, on the behalf of the EG, the progressive deployment of activities set out in the DP and ensure the efficiency in the different IGD-TP Working Groups.
- To compile outputs from the Working Groups which can serve as a basis for development of scientific and/or technical projects.

Conclusions

- The work of the Secretariat will change from mainly administrative tasks towards an emphasis on more scientific/technical issues.
- The Internet site (www.igdtp.eu) and the Intranet site (Projectplace) will play a more important role in the future work of the IGD-TP Secretariat than as seen so far.
